

PUSH AROUND VERTICAL (PAV) TRAINING*

**In conjunction with our official partner and IPAF Accredited Training Centre; Bolton Hire & Training*

This is a half day course (minimum of 4 hours instruction) - maximum of 8 delegates.

Aim

To instruct an Operator to prepare and safely operate various type of Push Around Vertical (PAV) Platforms and to obtain an IPAF Operator PAL Card.

Objectives

At the end of the course the Operator will;

- Be aware of the relevant Health & Safety regulations
- Be aware of the need to wear PPE
- Be aware of the need to refer to the machine Operating Manual

Theory

What the Operator should know;

- The pre-use checks and daily maintenance to be carried out prior to starting work
- The correct & safe method of operating the specific machine
- The correct emergency procedures, capacities and limitations to enable safe operation

Course Structure

- Introduction
- Legislation and guidance
- Pre-use inspections/handovers
- Safe operating methods and hazards
- Theory Test
- Practical Training
- Practical Assessment
- Course evaluation

NOTE

If an Operator has completed IPAF Operator – Category 1a or 3a qualification, they will NOT need to attend the PAV course, however familiarisation with the PAV unit you are using is recommended.
